## Conductor Jim

BY PAUL GILBERT

Here is a story from life the equal of any chapter of Dickens, full of laughter and tears. The story of Jim Burwick in his own words, reported by PAUL GILBERT. The meaning of it all—life a miserable failure, turned into a Christian triumph—is never lost to the reader.

## The Second Mile

BY REV. HARRY EMERSON FOSDICK

Not a book for the man with only his head and hand for his work—minus a heart. This earnest paper will be a source of renewed strength to the one whose soul is full of the wholesome purpose to do his best. The reader should turn from its closing page with new resolution for the battle.

## More Than Men

BY DR. CHARLES H. PARKHURST

If you want a book that presents a profound subject in a brilliant and clear style here it is. You can read all of its beautifully printed pages at a sitting, but the author's strong convictions as to spirituality as a basis of service will place you in a position to take a larger view of life and its duties.

## The Famine and The Bread

BY HOWARD AGNEW JOHNSTON

The author spent two years in the East as a representative of the Presbyterian Board of Missions. He has given a clear view of the work in seven great fields, embodying the prime elements in typical anecdotes. The illustrations will be unusual.

## Men Who Dared

BY CHARLES GALLAUDET TRUMBULL

The boy soul loves a hero, and the author of this course for boys presents twelve of the great characters of the Old Testament from the point of their heroic qualities. Teachers of younger classes should not overlook this course when making a selection.

## Selected Books for Boys

BY C. B. KERN

The boy's reading is a serious question. Here is a classified list of books of all kinds for live boys, and sufficient description is given to greatly aid in making a selection. Nearly two hundred titles have been selected with the help of specialists. A book for parents as well as for workers among boys.

# ISAAC PITMAN SHORTHAND

## Don't Be Held Down

"There is always **room at the top**," is the old and true adage. But in the ladder that leads to attainment the perspective is reversed and the rungs become farther apart as the top is reached. **The poorly equipped will reach no higher than the level of their attainments**, and so it is with shorthand writers and shorthand systems.

**The writer who chooses a poor system is far from the winner when the race is over.**

The adjoining diagram represents the highest net speeds attained by the different systems in the **First International Speed Contest** held at Baltimore, April 16, 1906; the **Second International Contest** held at Boston, March 30, 1907, and the **Open Championship** held at London, Eng., March 3, 1908.

# General Bible Courses

---

## Introduction to Bible Study

By J. W. COOK

Cloth, 25 cents; paper, 15 cents

This course replaces "Studies in Faith and Conduct," by the same author. He here discusses the questions of the authorship, general contents, geography, institutions and fundamental teachings of the Bible. An excellent preparation for more thorough work later. Adapted to general use among adults.

## Outline Studies in Biblical Facts and History

By I. N. DUPUY AND J. B. TRAVIS Cloth, 35 cents; paper, 20 cents

The authors have arranged this little book in four parts, the text being supplemented by maps and charts: I. Four lessons on Bible Composition and History. II. Thirteen lessons of Historical Studies in the Old Testament. III. Seven lessons of Historical Studies in the New Testament. IV. Two lessons in Conclusion. For general work with adult students.

## Leaders of Israel

By GEORGE L. ROBINSON

Cloth, 75 cents; paper, 50 cents

The character of these lessons has commended them very highly to students of the Old Testament. The twenty-five lessons are designed to portray the character of Israel's leaders, and the history of the chosen people, from the time of Abraham to Christ. Many maps and charts of peculiar interest add value to the book. For adult students.

## Wisdom Literature of the Old Testament

By HENRY T. FOWLER

Cloth, 60 cents; paper, 40 cents

Systems of Bible study are prone to slight this portion of the Scriptures. The author presents ten studies in the books of Job, Proverbs, and Ecclesiastes, dealing with the attitude of the Hebrews toward God in His relationship to their life problems, and applies these teachings to our own day. For advanced work.

## Ten Studies in the Psalms

By J. E. MCFADYEN

Cloth, 60 cents; paper, 40 cents

In this series of daily studies, representative Psalms are treated with a view to the development of spiritual life and character. Well suited to student department work.

## Message of the Twelve Prophets

By W. D. MURRAY

Cloth, 75 cents; paper, 50 cents

The purpose is to make the Minor Prophets a subject for devotional study. There are twenty-eight studies so arranged that each prophetic book is taken up by itself, covering the studies for one or more complete weeks. Chronological charts show the place of the prophets in Hebrew history. This course was originally prepared for the class of business men taught by the author.

## The Social Teachings of Jesus

By J. W. JENKS

Cloth, 75 cents; paper, 50 cents

To men who have looked upon Christ, with respect to His redemptive work alone, studies in His social teachings are a revelation. The twelve weeks' course given here considers His attitude toward the leading social questions of to-day. Vital and unique problems that present themselves in the life of our times are dealt with.

## Studies in the Acts and Epistles

By E. I. BOSWORTH Based upon the "Records and Letters of the Apostolic Age," by Prof. E. D. Burton. Sold in sets. Cloth, \$1.25; paper, 75 cents. Studies, cloth, 75 cents. Records, cloth, \$1.00. Paper books not sold separately.

Here the life of Paul is studied chronologically in thirty lessons. The several epistles are taken up in the order in which they are believed to have been written. These studies are scholarly and very helpful. Adapted to advanced students.

# Courses in the Life of Christ

---

## Studies in the Life of Jesus Christ

By E. I. BOSWORTH

Cloth, 90 cents; paper, 60 cents.

This course is what the title indicates. It is not a study of books of the New Testament which tell of Christ's life, but studies in the Savior's life as revealed in these books. There are thirty studies, in five parts, in the book: The detailed study of Christ's life, to the last week, chiefly according to Mark; a general survey of His life according to Matthew; a general survey of His life according to Luke; detailed study of the last week of Christ's life according to the synoptic Gospels; studies in Christ's life as presented in John's Gospel. The Course is adapted to individual and class use, and is arranged for daily study.

This course has been very highly commended by the religious press as well as by teachers and students. Says the "Record of Christian Work," "One wishes that church members might study it, thousands of them . . . thus changing vague and indefinite ideas of the Gospels into clear familiarity."

## Studies in the Life of Christ

By H. B. SHARMAN.

Used in connection with a Harmony.

Sets: cloth, \$1.25; paper, 75 cents. Studies alone: cloth, 75 cents. Harmony alone: cloth, \$1.00. Paper books not sold separately.

In the system of study followed here, the life of Christ is taken up chronologically. For this purpose a Harmony of the Gospels is essential. The thirty studies are of a devotional as well as historical character. The method of taking up the events and discourses of Christ's life in order of occurrence has certain advantages which commend it to those beginning to study the Master's earthly history.

This has been a very popular course, and large numbers of the sets have been sold during the past year.

## Studies in the Life of Jesus

By W. H. SALLMON.

Cloth, 40 cents; paper, 25 cents.

In the outline historical study of the life of Jesus, here presented in twenty-five lessons, emphasis is placed upon the character of Christ as a living reality. The discourses in John's Gospel have been omitted, as have the parables and miracles, the latter forming the subjects of separate courses by the same author. Maps, suggestions to leaders, and a bibliography are included in the book.

One of the shorter courses, for which there is a steady demand.

## Inductive Studies in John

By W. W. WHITE.

Cloth, 25 cents; paper, 15 cents.

President White's course in John's Gospel is designed for advanced studies in inductive work. There are two main divisions in the course. 1. The public manifestation, the signs. 2. The private manifestation, Himself. There are twelve lessons and they are arranged with a view to daily study. John's Gospel, the most prominent and attractive of all, is here treated by a Bible teacher of wide experience.

# Reaching Individuals

## Bible Study is Not Soul Winning

Perhaps you never thought of it in this light before. But has it ever occurred to you that a man might study the Bible for fifty years and memorize hundreds of precious passages from it, and yet be unable to win souls to Christ? Yet most classes for the study of personal work are chiefly Bible-study classes, devoting their time and energies to studying the Scriptures.

That was not Christ's way. He had a better way, and it is made very clear and simple and usable in Charles Gallaudet Trumbull's new volume on

## TAKING MEN ALIVE

The chapter on "The Place of the Bible in This Work" is enough by itself to show how mistakenly many have been working in this field; yet that is only one of the ten convincing chapters in this fresh, unconventional volume.

Cloth, 60 cents; paper, 40 cents; postpaid

## Other Books on Individual Work

### Religious Work for Men

Cloth, 50 cents, postpaid

The expression of the Bronxville Conference of January, 1907, this is the new edition of "Principles and Methods." The contents cover: Survey of the Whole Field in the Introduction, Promotion of Prayer, Bible Study, Personal Work, Local Extension, Home and Foreign Extension, Bibliography. The Bibliography alone makes the book worth having.

### Individual Work for Individuals

By H. CLAY TRUMBULL

Cloth, 75 cents; paper, 35 cents

Here is a great record of the experiences and convictions of a life-long personal worker. No volume by this noted author has sold so widely. Thousands of copies have been ordered by denominational organizations alone. The religious press has most heartily endorsed it.

### How to Deal With Doubts and Doubters

By H. CLAY TRUMBULL

Cloth, 65 cents

Every worker meets those who are troubled over their doubts and fears relative to the Christian faith. Dr. Trumbull takes up such points in a way that is valuable to both the worker and the one in doubt. Earnest Christians also will find it a choice volume.

### Personal Work

By S. M. SAYFORD

Cloth, 75 cents

Method and practice are included with theory in this little book by an experienced worker.

### Studies for Personal Workers

By HOWARD AGNEW JOHNSTON Cloth, 66 cents; paper, 45 cents;  
special abridged edition, paper, 25 cents.

This has proved a valuable book, and has been translated into the Chinese and Korean languages. Man's Need, Man's Responsibility for Man, Equipment for Work, Ways of Working, Use of the Bible, are some of the topics. There are three lessons on notable personal workers.

# OWN THE BEST!

THE BEST VERSION of the Scriptures is that of the AMERICAN STANDARD BIBLE. This is attested by the fact of its official endorsement by the editors of the Sunday School literature of all the leading denominations in America, as well as by hosts of other testimonials as to its value. The translation of the American Revision Committee is now acknowledged to be the most accurate in existence.

THE BEST BINDING is the one that gives the longest and most satisfactory service, not the one that costs least. For this reason it is economy for every Bible student to purchase a well made copy, both in point of materials and workmanship, one that will last a lifetime and preserve the notes and references he makes from time to time.

The editions here described are made to the order of the International Committee by Thomas Nelson & Sons, the long established British and American Bible publishers, and can be purchased only through the

# FOR BOYS' CLASSES

---

## Life and Works of Jesus

By WILLIAM D. MURRAY

Cloth, 75 cents; paper 50 cents

The mighty works of Christ are especially emphasized in this elementary course, the lessons being based on the Gospel of Mark. There are wide margins for notes. The book is adapted to boys between the ages of fifteen and eighteen, and is designed to cover twenty-six weeks.

The *Christian Endeavor World* says: "Among the many helps to the study of the life of Christ, William D. Murray's 'The Life and Works of Jesus According to St. Mark' deserves an honorable place."

## What Manner of Man Is This?

By WILLIAM D. MURRAY

Cloth, 40 cents; paper, 25 cents

Teachers of boys under fifteen find here a book adapted to the needs of this trying age. The boy's natural longing for activity is taken advantage of instead of being repressed. His attention may be secured and his memory aided by the provision for original sketches and map making by the pupil, and by the use of pictures and stereoscopes. There are nineteen lessons.

## Life of Christ

By W. H. DAVIS

Cloth, 20 cents; paper, 10 cents

This course is of an elementary character, there being seventeen lessons prepared with a view to the needs of boys under fifteen. Graphic illustrations made by the teacher and copied by the student are employed to fix events in the mind.

## Life of St. Paul

By ARTHUR G. LEACOCK

Cloth, 75 cents; paper, 50 cents

This life of the great apostle is proving one of the most popular for young people yet published. It is especially arranged with a view to the needs of students in preparatory schools, and high schools. There are twenty-four lessons, with generous explanations and comments upon the details of Paul's life.

The *Epworth Era*, speaking of this book, says: "The International Committee of Young Men's Christian Associations have performed a great service to all who are interested in Bible study."

## Life and Letters of Paul

By F. S. GOODMAN

Cloth, 25 cents; paper, 15 cents

Mr. Goodman's book presents an elementary study of Paul, arranged chronologically. Provision is made for a limited study of Paul's epistles. The appendix has a classification of his epistles and a chronology of his life. This course is suited to boys from fifteen to eighteen years old.

## Travels of Paul

By MELVIN JACKSON Teacher's edition, cloth, 40 cents; paper, 25 cents. Students' leaves, with maps, per set, 10 cents.

The aim, in this course for boys of fifteen, is to bring out the heroic qualities in Paul's life. The lessons are arranged to cover twenty-five weeks. The loose leaves are to be given out each week in advance. The three maps are used in tracing the apostle's missionary journeys.

## Men of the Bible

By W. H. DAVIS Teacher's edition, cloth, 40 cents; paper, 25 cents. Students' leaves, with maps, per set, 15 cents.

This set of twenty-five lessons is based upon great characters, and covers the whole Bible, and is prepared for boys under fifteen. It is intended that clay modelling and map moulding shall accompany the use of these lessons. They are arranged for daily study for a term of twenty-five weeks.

## Men Who Dared

By CHARLES GALLAUDET TRUMBULL Teacher's edition, cloth, 40 cents; paper, 25 cents. Students' edition, 10 cents. Set of twelve half-tone pictures to illustrate the lessons, 10 cents per set.

Boys are natural hero worshipers, and this course of eighteen lessons for those under fifteen is designed to make use of this characteristic of youth for the furtherance of the boy's knowledge of the great figures of Old Testament history. It is arranged for daily work.

Why the Y. M. C. A. Bible Classes, Bible Teachers' Training Schools, Universities, Colleges and Theological Seminaries, Sunday School Magazines and Lesson Papers, and the great Scholars, Clergymen and Teachers of all denominations have adopted the

## American Standard Bible

(Edited by the American Revision Committee)

It is because it is the most perfect translation of the Bible into English that was ever made.

It differs from the King James translation only in those texts where the accumulated scholarship of the three centuries (since the King James version was completed) leaves no doubt that a change is required to state the true meaning of the original.

It is a dignified translation into the simple, clear, pure English of our own day, which is easily understood by everybody, making the use of a Commentary unnecessary.

Obsolete words and archaic phrases have been rendered into present day English and hundreds of mistakes in translation have been corrected.

The American Revision Committee devoted thirty years to the work of translation and revision, and gave their services without pay or compensation, in order that America might have the best version of the Scriptures in the English language.

The unqualified approval of the leading ministers of all denominations, presidents of colleges and seminaries, the leading critical journals, the great religious papers of the world, professors and scholars, attest that for them, as well as for the general public, the **AMERICAN STANDARD BIBLE** is the most perfect English Bible in existence.

# J. H. ATWATER CO.

PROVIDENCE, R. I.

Manufacturers of the ATWATER NEWSPAPER FILES  
and FILE RACKS for READING ROOMS

BUSINESS ESTABLISHED IN 1863

THIS illustration from photograph shows a Three-story File Rack with six Files on each side of the first story, and six Files on each side of the second story uprights, supported by brass hooks. The third story is the index, which is preferred by some.

Twelve Files of any three consecutive lengths between bands can go on the first story, and twelve of any other three consecutive lengths smaller can go on second story. The lengths between bands are 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, and 40 inches.

This Rack occupies floor room only about one foot wide by three feet in length—a great advantage in economy of room.

It weighs only about twenty pounds, and is very portable and is usually sent by express in a package, each piece protected, and can be readily set up at its destination. Illustrated price list sent free, both of files and racks.

The size most frequently ordered is for Files eighteen to twenty-eight inches between bands. The racks are usually made of white-wood, finished nicely with two coats of either orange or mahogany colored shellac. If oak Racks are ordered they will cost one dollar extra.

The Atwater Files and Racks are now, and long have been, the standard article in general use.

Address J. H. ATWATER CO., . . . . . Providence, R. I.  
Money Orders should be made payable in Providence, R. I.

# ASSOCIATION MEN

---

F. W. OBER, EDITOR

The representative publication of the International Young Men's Christian Association movement, tells the story of the Y. M. C. A. and its services and successes in a way which compels interest, wins confidence, encourages men to do their best, live their best, and give of their best.

**In Australia,** a gift of \$4,000 came to the Wellington (New Zealand) Association, from men who had been deeply interested in reading the account of the movement in ASSOCIATION MEN. The secretary writes: "The magazine has done a magnificent piece of educational work."

**In America,** the secretary of an Ohio city said: "ASSOCIATION MEN has been of the greatest possible value to us and has done much to make our work successful. We have found that Bible class teachers, shop leaders, and contributors, have become interested in this work solely in the reading of this magazine."

**In Manila,** ASSOCIATION MEN was accorded the credit of being one of the largest factors in securing the success in the building campaign carried through there.

**Hon. H. B. F. Macfarland,** Commissioner of the District of Columbia, states: "Of all the many magazines which come to my desk there is but one that I read from cover to cover, and that is ASSOCIATION MEN."

## Association Men

employs no agents, pays no commissions. It is the aim of the International Committee to make a publication that an Association man cannot do his best work without. An Association will promote its circulation for the direct benefit it will bring to its local work.

**Subscription \$1.00 per year      In Canada \$1.10**  
**In Foreign Countries \$1.25**

## STATEMENT REGARDING THE WORK OF THE INTERNATIONAL COMMITTEE

### GENERAL ADMINISTRATION

1. **NEW BUILDING.** In the administration of the International work the past year has been signalized by the completion and occupation of a new headquarters building owned by the Committee and adequate to give office accommodation to all departments of its world-wide work at home and abroad.

For the first three years after its appointment and location in New York City, (1866-69) the Committee, consisting then of five members all resident in New York and Brooklyn, had no office. Its meetings were held in the offices of its members. When the New York City Association entered its first building at the corner of 23d Street and Fourth Avenue, in December, 1869, an office was granted to the Committee in the third story above the office of the General Secretary of the Association. For nineteen years the Committee occupied this office without rent—a gift of the New York Association to the whole brotherhood worthy of most grateful commemoration.

In 1880 the growth of his work led the committee by an arrangement with the General Secretary to remove his desk and office to his residence where it continued until 1898. But for a much longer period and without any expense to the Committee, during all the twenty-five years (1867-1892) of his remarkable service as chairman of the Committee, the library room of Cephas Brainerd in his own home, during the evenings, was a very generous contribution by him to the office equipment of the Committee. It was in this evening office, always open, and in his consultation there with the international Secretaries, and in his inditing or dictating of important correspondence or reports, that he rendered a very important part of that quiet, unreported, invaluable service to the whole brotherhood, the record of which will probably not be discovered until "the books are opened."

In 1888, in connection with the launching of its Metropolitan organization, the Board of Directors of the New York Association desired to remove the office of the Board and its General Secretary to rented quarters and the International Committee united with the Board in securing such accommodation at 40 East 23d Street within a few doors of the Association Building. Thus in its twenty-third year the Committee began to pay rent for its general offices. For ten years (1888-1898) the offices were located in these rooms.

Steady growth during this decade (1888-1898) made larger accommodations imperative, and in 1898 an entire floor of the new office building at 3 West 29th Street was rented by the Committee. Up to this time the growth of the International work had been rapid, but beginning with 1898—the year of the Spanish-American war and the undertaking of the Army and Navy work—growth and enlargement were so greatly accelerated that gradually in this building the equivalent of an additional floor was occupied by the Committee. The fact that the accommodation continued inadequate and the rental was increasingly burdensome, led to earnest prayer and

effort toward securing for the Committee a building of its own adequate to the need of all the departments of its world-wide work.

Thus after nearly forty years of wandering without a home and abiding place, the Committee had the privilege early in April, 1908, of transferring its general offices to its own building erected for its special use on East 28th Street, New York City, the noble gift of Mrs. Russell Sage and built upon a commodious site given by Mrs. William E. Dodge. In providing this building these two generous donors have made possible an advance and development of Association work which will increase the efficiency of each organization in the movement. The edifice stands not only as a visible evidence of Association supervision and its value, but as a testimony in brick and stone to the unity of a world organization which is rapidly becoming as universal as the race and as comprehensive as the needs of men. The equipment of the building was provided by the generous gifts of members and other friends of the Committee, the total cost of site, building and furniture being a little more than half a million dollars.

The formal opening occurred May 28th to June 4th, 1908, and included a series of special services, receptions and conferences attended by representatives of the Associations from all parts of the United States and Canada. A feature of the dedication services was the unveiling of a bust of Sir George Williams, presented by his sons, which is a duplicate of the bust, by the same artist, George Frampton, R. A., placed at the founder's tomb in the crypt of St. Paul's Cathedral. While the building has been provided free of indebtedness and furnishes an admirable office equipment for the Committee and each of its departments, it is an endowment not yet completed as the cost of its maintenance will equal the amount heretofore paid for rent. It is a part of the Committee's plan and purpose to secure a building maintenance fund so that this item of expense may be permanently eliminated from the annual budget. In the meantime the expense of maintaining the building is temporarily provided for so that all contributions given for specified departments of the Committee's work will continue to be used solely and exclusively for the purpose for which such gifts are made. According to the wise and broad intent of its donors the building provides ample office accommodation also for the National Board of the Young Women's Christian Associations and for the Student Volunteer Movement for Foreign Missions.

2. COMMITTEE MEMBERSHIP. The following new members have been added to the Committee to fill vacancies and to provide for the increased membership authorized by the Washington Convention, viz., John W. Ross, Montreal; H. J. Crowe, Newfoundland; Harry Ryrie, Toronto; Selden P. Spencer, St. Louis; W. W. Cummer, Jacksonville, Fla.; William Jay Schieffelin and John Sherman Hoyt, New York, and T. S. Lippy, Seattle, the two latter having been transferred from the advisory membership. Albert J. Nason, of St. Paul, Minn., has been elected a member of the Advisory Committee. During the year the Committee has been called to mourn deeply the loss of the following members: Harvey Graham, New Glasgow, N. S., C. T. Williams, Montreal, and also Morris K. Jesup and Walter M. Smith of the advisory board.

3. EXECUTIVE COMMITTEE. This Committee has general charge of the work during the intervals between the meetings of the International Com-

mittee and is composed of the four officers. The General Secretary, Richard C. Morse, and the two Associate General Secretaries, Clarence J. Hicks for the Home Field and John R. Mott for the Foreign Field, have continued their active and responsible relation to the administration of the Committee's work.

4. **CANADIAN SECTION.** This body has its headquarters in Montreal, is composed of members of the Committee resident in Canada with W. M. Birks as Chairman, and has relation to the work throughout the Dominion. In January, 1908, as in the previous winter, an all-day conference with the Canadian Section was held in Montreal in the interests of the work of the Committee throughout the Dominion.

5. **INTERNATIONAL CONVENTION.** The Thirty-Sixth International Convention met in Washington, November 22-26, 1907. 695 Associations were represented by 1468 voting and 604 corresponding delegates, a larger number of both Associations and voting delegates than were in attendance upon any preceding convention.

The sessions were characterized by addresses of unusual strength. The International Committee's report called forth discussion and action of fundamental importance.

The evangelistic services held throughout Washington, not only on Sunday but upon every day of the Convention, were remarkable beyond precedent in spiritual power and results. A full report of the proceedings and discussions has already been issued by the Committee.

6. **WORLD'S COMMITTEE.** The relation of the North American Associations to the World's Committee was emphasized at the Washington Convention by the presence of the Chairman of that Committee, Mr. R. Sarasin-Warnery, of Basle, Switzerland, and one of its General Secretaries, Mr. Christian Phildius. Their presence was due in part to action taken at the Plenary Meeting of the World's Committee held in London, July, 1907, at which the Vice-Chairman of the International Committee, Mr. A. E. Marling, and its General Secretary, were present and action was taken in reference to the co-operation of the World's Committee with the International Committee in relation to extending care and hospitality to immigrants coming from various countries of Europe to North America.

The Industrial Department of the International Committee had already devoted attention and effort to immigration work, and Mr. Phildius, on the part of the World's Committee, in 1907 both before and after the plenary meeting had visited some of the ports of departure whence immigrants are leaving Europe, in the interests of the Association.

After the Washington Convention Messrs. Sarasin and Phildius were in consultation with the Committee and its Industrial Department, and they also visited a number of the leading North American cities. In every instance the presentation of the immigration work was received with interest. Mr. Phildius, since his return to Europe, has continued visitation of the ports of departure in both Great Britain and on the continent.

As a result of concert of action between these two committees on either side of the Atlantic, some benefits have already been secured for these many thousand immigrants and a work of Christian hospitality has been begun which the Committee believes will be actively shared in by local Associa-

tions in their relation to these immigrants, not only in the ports where they are arriving, but in the many cities and towns where they are beginning their residence and work on this continent.

7. **BOARD OF TRUSTEES.** The Trustees held their regular meeting January 21, 1908. The Treasurer presented his report showing a total amount of endowment funds on hand of \$901,002.59. Of this amount \$897,765.88 is invested in interest bearing securities. The statement of the Treasurer of the International Committee in another portion of this Year Book shows the amount of interest on the various funds in the hands of the Trustees which has been turned over to the Committee.

8. **ANNUAL DINNER.** More than 300 friends and contributors of the Committee attended the Annual Dinner at the Waldorf-Astoria Hotel, New York, on October 31, 1907, at which time brief statements concerning several departments of the Committee's work were presented. Mr. R. Sarasin-Warnery, of Switzerland, Chairman of the World's Committee, was one of the honored guests and speakers.

9. **SUMMER CONFERENCES AND INSTITUTES.** Last summer at Lake Couchiching in Canada, Lake Geneva, Wis., Hot Springs, Ark., and Silver Bay, N. Y., more than five hundred men spent from two to four weeks in training for Association work. The majority were paid officers of Associations, but a considerable number were fitting themselves to enter the work so that these summer schools are helping to supply the demand for trained men, both by increasing the efficiency of those already in the work and by training inexperienced men. This year a new school was held at Estes Park, in Colorado, and a course of training for boys' work directors was added at Silver Bay. In addition to the above, there were six summer conferences for college students in which the enrollment was 2600. In all of these conferences and institutes, the International Committee has participated through its secretaries. For the entire management and leadership of the Student Conferences it has been as heretofore responsible. This educational and inspirational contribution by the Committee to the training for service of Association workers has been steadily increasing from year to year both in volume and quality.

10. **THE WOMEN'S AUXILIARY.** The Auxiliary has now completed its first decade, the members having contributed in that time over one million four hundred thousand dollars toward work for which the International Committee is responsible, nearly two-thirds of this for building and equipment. During the past year the First Vice-President, Mrs. Russell Sage, has increased her gift for the enlargement of the Naval Branch, Brooklyn, so that the addition now in course of construction will double the capacity of the present building. The money has also been provided for the enlargement of the Army Association building at Fort William McKinley, in the Philippines. In addition to special gifts the regular lines of assistance have been continued in the foreign as well as the home field.

A severe loss has been sustained in the death of the President, Mrs. Edwin A. McAlpin, who had held the office since the organization of the Auxiliary in 1897, and had rendered a service of highest value to the society.

11. **SEPTEMBER CONFERENCE.** The annual conference of the International Committee and its secretaries was held at Silver Bay, N. Y., August

ASSOCIATION BUILDING, DENVER, COLORADO.

Occupied December 14, 1907.

Dimensions, 125 x 150 feet.

Cost, \$370,000.

Population, 200,000.

30—September 2, 1907. Sixteen members and trustees of the Committee were present and seventy-eight secretaries, including three foreign secretaries on furlough and nine under appointment. Each secretary submitted a report of his work for the past year and as usual the conference was one of great interest and practical value to both the members of the Committee and the secretaries.

## HOME WORK

I. **BUSINESS DEPARTMENT.** In the interest of greater efficiency of administration the Business Department was created during the past year and is being conducted under the general direction of the Executive Committee, with F. B. Shipp as senior secretary. This new department has relation to the business affairs of the Committee including the administration of its finances with regard both to receipts and expenditures, co-operation with the several departments in securing funds to meet their budgets, supervision of general office work, purchasing, administration of the new headquarters building and handling of special matters as authorized by the Committee. Every increase of the Committee's activities in its many branches adds to the volume of important work demanded of the Business Department.

(a) *Finances.* For the year ending December 31st, 1907, the Committee expended in the conduct of its regular work on the Home Field a total of \$221,843.18 and in the conduct of the work on the Foreign Field \$168,556.79. This is in excess of the 1906 expenditure by \$51,874.89 and is due to important enlargement of the work in several departments. The generous appreciation and help of the Associations and the many friends of the Committee's work, together with the increased assumption of responsibility for their respective budgets by the different departments, made it possible for the Committee, as heretofore, to close the year with all bills paid. Thomas K. Cree has continued his efficient and indispensable work of co-operation in connection with the raising of funds for the home budget of the Committee. The responsibility for the growing foreign budget has been happily cared for chiefly by John R. Mott and E. T. Colton. C. E. Lyman acts as the Committee's cashier, and G. C. Cameron attends to the auditing of bills.

(b) *General Office Work.* P. F. Jerome has continued to act as Office Secretary, his responsibilities including the supervision of the details of the general office work, the employment of stenographers and clerks, the purchase of supplies and the ordering of all printed matter, except for Y. M. C. A. Press.

(c) *Headquarters Building.* The supervision of the many details incident to the erection of the Committee's new building and the selection and purchase of the equipment was largely cared for by this department. A. E. Pettit is now employed as superintendent of the building.

(d) *Historical Library.* This library is now located in the Committee's new fireproof building where ample provision has been made for it. J. T. Bowne continues his general oversight of this work, giving to it such time as his duties in connection with the Springfield Training School will permit. Frank E. Burgess is in immediate charge of the library which is open daily throughout the year, except on Sunday, for the use of all whose interests

can be served by reference to this valuable collection of books and pamphlets. A section for Association building plans and specifications is being organized.

2. PUBLICATION DEPARTMENT. This department which is now known as the "Y. M. C. A. Press," was separated during the year from the office management, and on January 1st E. M. Willis was placed in charge, the business office of "Association Men" being added to the Department. On removal to the new building responsibility was assumed for handling the stock and shipping of the Student Volunteer Movement and the National Board of the Young Women's Christian Associations. The new accommodations increase the efficiency of the department in a marked degree. Herbert H. Hahn has been added to the force with a special relation to the business management of "Association Men." Mr. R. M. Kurtz who has served the Department faithfully for the past year accepted a position elsewhere on July 1st. The other secretaries in the department are G. L. Leonard, H. S. Ninde, R. J. Cole, A. T. Magagnos and W. B. Osgood. The following is a list of the publications issued during the year:

- Annual Report of Religious Work—*Goodman*.
- Association Year Book.
- Educational Activities for Boys—Reprint from *Association Boys*.
- Enlisting Fraternity Men—*Slack*.
- Essentials—*Jefferson*.
- Gospel in Athletic Phrases—*Waite*.
- Graded Gymnasium Exercises—*Martin*.
- How to Deal With Doubts and Doubters. (Revised Edition)—*H. C. Trumbull*.
- Information and Suggestions—*Hodge*.
- Men Who Dared. (Student Edition)—*C. G. Trumbull*.
- Men Who Dared. (Teachers Edition)—*C. G. Trumbull*.
- Men of Steel—*Adair*.
- More Than Men—*Parkhurst*.
- Outlines of Courses of Study—*Hodge*.
- Religious Work for Boys—Reprint from *Association Boys*.
- Religious Work for Men—*Goodman*.
- Report of Washington Convention.
- Round Table Discussions—*Wood*.
- Selected Books for Boys—*Kern*.
- Short Term Building Campaign—*Ward*.
- Story of Jesus by John (Army Edition)—*Knebel-Goodman*.
- Student General Secretary—*Hurrey*.
- Studies in the Wisdom Literature—*Fowler*.
- Taking Men Alive—*C. G. Trumbull*.
- Ten Studies in the Psalms—*McFadyen*.
- What Manner of Man?—*Murray*.

3. ASSOCIATION MEN. To bring to active men in the Association movement in thirty different countries the best that Association thought, utterance and accomplishment can furnish has continued to be the purpose of this messenger of association progress. More than in any previous year the constructive and well nigh universal services of the Association paper have been recognized. The introduction of "Every-day-in-the-year" notes

for daily Bible reading has largely extended the circulation and has placed the paper for the first time in the hands of a great number of men of promise in the work. The business management has been assumed by the "Young Men's Christian Association Press" with great advantage to the paper, and on the other hand, *Association Men* has proven decidedly valuable in extending the sale of the regular book publications of the "Press." Through its monthly issues and through the weekly "news service" *Association Men* has made Association work more widely and better known than ever before.

4. FINANCE: BUILDING AND MAINTENANCE FUNDS. C. S. Ward has continued to give his time to the organization and conduct of building fund campaigns in the larger cities. The months of financial depression have made his work unusually difficult, but notwithstanding these unfavorable conditions nearly \$3,000,000 has been thus pledged in the thirty short term building campaigns he has conducted during the past three years. Mr. Ward will continue to devote his attention largely to this line of work. It is expected that he will also be able to give attention during a portion of his time, under the direction of the Executive Committee, to financial campaigns for other special objects in connection with Association work. To facilitate this adjustment and arrangement of his work his office has been transferred to New York.

5. FIELD DEPARTMENT. C. K. Ober, C. L. Gates, W. M. Parsons and Bruno Hobbs, have continued their work on the same general plan as last year, with headquarters respectively at New York, Atlanta, Minneapolis and St. Louis. Three new state and territorial organizations have been formed: In South Dakota, in Oklahoma and in the far Southwest. The organization in the latter field was accomplished with the co-operation of the Railroad and Industrial Departments and includes the territories of New Mexico and Arizona and also Texas west of the Pecos River and the industrial communities of northern Sonora, Mexico. A new summer conference has been established for the city, railroad and industrial Associations west of the Missouri River at Estes Park, Colo. City and state organizations have been aided in all parts of the field. In accordance with the wishes and recommendation of Mr. Ober the Committee has transferred Mr. Hobbs from St. Louis to New York to have relation to the general administration of the Field Department. Mr. Gates will take Mr. Hobbs' former field in the southwest, making his headquarters at Kansas City, and for the present Mr. Ober will give special attention to the Southeast.

6. COUNTY DEPARTMENT. The County Work is increasingly attracting the attention of prominent educators and others who are interested in rural social welfare. An advisory council of several men of this character is now co-operating with this department. Ontario, Kansas and South Dakota have instituted County Work during the year, so that now this work is organized in eighteen state and provincial fields with a total of forty-two organized counties. County Work Institutes at Silver Bay and Lake Geneva were attended by forty-two students. There has been a gain of twenty-five per cent in Bible Study classes, making a total of fifty-five hundred students attending the classes. Two changes have taken place in the secretarial staff during the year: Robert Weidensall after having given

ten years of active service was retired to an honorary relation, and A. E. Roberts of Massachusetts has been added to the force during the year. J. R. Boardman continues as the executive secretary of the department.

From the standpoint of state and provincial supervision of county work the year has been a somewhat critical one owing to the number of losses and changes in department secretaries, this condition being aggravated by the lack of strong available men to fill the vacancies. At the present time fourteen states and provinces have secretaries giving practically their entire time to department supervision. It is a body of efficient men who are giving increasing evidence of their appreciation of the magnitude and importance of the work and their ability to give it statesmanlike supervision.

7. RAILROAD DEPARTMENT. The Railroad Department has during the year made two contributions from its secretarial force to other departments: (a) The Industrial work in the west, to which George D. McDill has been giving a portion of his time, has grown to such proportions that Mr. McDill has felt obliged to sever his connection with the Railroad Department and devote himself exclusively to the Industrial Department. (b) Ed. M. Willis has been assigned to the responsible position of leadership in the Publication Department. The work of these men is being attended to temporarily by their railroad associates. Richard C. Morse, Jr., has been kept from his educational work on the Gould lines several months during the past year by serious illness, and he resigns his position July 1st in accordance with the counsel of his physician. E. L. Hamilton, H. O. Williams, J. F. Moore, A. G. Knebel, J. M. Dudley and W. H. Day continue in their respective fields as reported a year ago. It is worthy of note that during the severe financial depression of the past nine months, the appropriations made by the railroad companies toward the support of Railroad Associations have not been disturbed and the work of the Associations has gone steadily forward.

The new Railroad building at St. Louis, the gift of Miss Helen Miller Gould, was formally opened in October, 1907. The importance and influence of this event gave impetus to Railroad Association work throughout the Southwest. Six months after the opening over two thousand railroad men had become members, thus making it the largest Railroad Association in the world.

The Long Island Railroad Department is erecting a new building that will cost \$100,000, the gift of Mrs. Russell Sage. This building will be opened about November, 1908. Through the efforts of Mr. W. H. Day and with the financial backing of the Industrial Department, work among men in the bridge-building and railroad construction camps has been undertaken. Railroad Association work has made a remarkable beginning on the Canadian Pacific Railway, three points, viz: Kenora, Schreiber and Chapleau having been organized at the request and with the liberal support of the Company. Ample accommodations have been provided for the Railroad Association in the magnificent new fifteen million dollar terminal station in Washington, D. C. At five points railroad hotels and club houses have been transferred during the past year to the Railroad Department, and are now in operation as Railroad Associations. The success of Railroad Institutes for training railroad secretaries, held at Silver Bay in 1906 and at Hot Springs in May 1907, made necessary similar summer institutes at Silver Bay and Lake Geneva in August 1907 and at Hot Springs in May 1908. A new feature of work has been the holding of three large Sunday

Gospel services in connection with the annual convention of the Brotherhood of Locomotive Engineers in Columbus, Ohio. This was recognized as a part of the official program of the Convention.

8. **INDUSTRIAL DEPARTMENT.** Charles R. Towson is in charge of the executive administration of the industrial work. The two-fold aim of the department during the past year has been (a) increased interest by Associations in industrial workers on their respective fields, (b) establishment of Associations in industrial plants and communities. J. R. Thompson has been at work in the Northwest. George D. McDill, released by the Railroad Department, is giving all his time to supervision of work west of the Mississippi River and in the lake regions, with headquarters at Chicago. H. O. Bernhardt is giving attention to cotton mill fields, with headquarters at Charlotte, N. C. D. W. Pollard represents the territorial and industrial committees in Arizona and New Mexico, with headquarters at Douglas, Arizona. Charles R. Towson is in charge of the executive administration of the department, with headquarters in New York. Ira D. Shaw, Dr. William Burdick and M. L. Robinson are located at the Kensington branch, Philadelphia, doing experimental work. Dr. Peter Roberts is the special secretary for work among the immigrants and resident foreigners and has headquarters in Philadelphia. He has inaugurated instruction in English and Civics, has co-operated with Associations at Ports of Entry and has helped other Associations in developing plans of work for immigrants and resident foreigners. John Sumner devotes his attention chiefly to the office work in New York City. J. A. Baldwin has charge of the Southern Industrial Institute in Charlotte, N. C., in the heart of the cotton mill industry. This Institute was acquired by the Industrial Department for the purpose of demonstrating the need and value of elementary and technical instruction in connection with the cotton mill field. W. H. Morrison has been engaged in demonstrating the value of the Association in railroad construction camps in the West and is now located in Taft, Montana, where the Chicago, Milwaukee and St. Paul Railway is maintaining the first Association in a construction camp supported by corporate funds.

9. **THE STUDENT DEPARTMENT.** The East has been visited by Frank V. Slack, the South by W. D. Weatherford, who was assisted for half of the year by R. V. Taylor, Jr., the West by C. D. Hurrey, succeeded on September 1st by A. J. Elliott, Canada by T. H. Billings. T. B. Penfield has continued to cultivate the theological institutions, while John A. Addison has served as office secretary. David R. Porter has visited preparatory and high schools under the joint supervision of the Student and Boys' Departments. The Bible study work has continued in charge of Clayton S. Cooper who has been aided by Neil McMillan, Jr., in the field and by Charles F. Karnopp in the office. The executive administration of the Student Department has been directed by John R. Mott and H. P. Andersen who have continued to serve as members of the Executive Committee of the Student Volunteer Movement.

A new advance has been made in Bible study. The total enrollment has reached over 50,000 students. Greater emphasis has been placed on the quality of the work and the agencies to train Bible class leaders have been extended. There have been 142 normal Bible classes of leaders under the direction of professors and other Bible experts and 251 Bible institutes.

The Student Volunteer Movement which cultivates the missionary department of both Young Men's and Young Women's Christian Associations in the colleges has extended still further the study of missions by students. During the year 275 volunteers entered upon foreign missionary service, making the total number of sailed volunteers 3482. A candidate department to help relate missionary candidates to the church boards has been organized with Dr. S. M. Zwemer as secretary.

The enlisting of more men of ability for the Christian ministry and other Christian callings has had special attention. Not only has the subject received thorough study but the claims of the ministry have been presented forcibly in student conferences, ministerial institutes and many colleges.

The attendance upon the seven summer and winter conferences to train officers and leaders of the student Associations has surpassed all previous records. For the first time a student summer conference was held in Canada at Niagara-on-the-Lake.

The number of employed secretaries including those of the Student Volunteer Movement has increased to 170.

10. ARMY AND NAVY DEPARTMENT. William B. Millar, John S. Tichenor and Fred A. McCarl continue as secretaries of the department, while Edgar MacNaughten has been added as a special secretary in charge of the religious work and William J. Lamkie as a special secretary in charge of educational work.

During the year Associations have been organized at Fort Wayne, near Detroit, Fort Wright, near Spokane, Fort Lawton, near Seattle, Fort Andrews in Boston Harbor and at Washington Barracks in the city of Washington.

The Association in the new building at Fort Leavenworth has been organized and its development has been remarkable.

A temporary work has been conducted for the fleet in San Francisco, a three-story building having been rented and when this proved inadequate two extra stores were secured. Urgent appeals have come to make this work permanent. The Association at Rio de Janeiro also did efficient work for the men of the fleet during their ten days' stay in that city.

The Jamestown Exposition Association proved all and far more than had been expected and has been of value not only to the individual men, large numbers of whom were influenced, but has also been of distinct advantage to the army and navy work as the men have gone back to their various stations.

The Norfolk building costing \$300,000, the gift of Mr. J. D. Rockefeller, is under roof and will be ready for occupancy January 1, 1909.

The addition to the Brooklyn naval plant costing \$350,000, the gift of Mrs. Sage, is being erected and will nearly double the capacity of that large building.

Despite the fact that the fleet has taken many men from the Atlantic coast the total amount of work which the Naval Association has done has not been appreciably decreased thereby. The same general increase of business as heretofore is recorded in the statistical reports from the various naval branches.

Much stress has been laid this year upon the strengthening of organizations and intensive development. Strong committees of management have

been organized at Fort Snelling and the Philadelphia Naval Branch, and the entire San Francisco harbor work is being placed upon a new and strong foundation with the hope of ministering to all the enlisted men in the harbor. The Boston harbor organization has also made steady advance, four different posts being organized under the supervision of a general committee of management.

The government has assigned a prominent site at the League Island Navy Yard for the erection of an annex to the Philadelphia Naval Branch.

Extended work at summer military encampments has been conducted by the state committees and local Associations and is again planned for the summer of 1908.

**11. COLORED MEN'S DEPARTMENT.** The following encouraging facts mark the work of the past year in this department:

(a) Through the co-operation of the Religious Work Department, a successful series of evangelistic meetings was conducted in several city Associations resulting in the conversion of scores of men and in establishing the importance and value of such efforts as a permanent feature of the work.

(b) The new building at Columbus, Ga., was completed and occupied, increasing the number of Colored Associations owning buildings to twenty and their value to \$300,000.

(c) The gift of \$500 by one colored man and the raising of \$12,000, entirely among colored people, in ten days for a new building in Portsmouth, Va.

(d) More than 3,000 students were enrolled in Bible Study classes, or about twenty-five per cent of all the young men attending the eighty-nine (89) schools in which Associations are organized.

W. A. Hunton has continued as Senior Secretary of this department, devoting the larger portion of his time to student work. J. E. Moorland devoted all of his time to city work, and George E. Haynes to student work in the Southern States.

**12. PANAMA.** To the five secretaries at work in the four Association Buildings on the Canal Zone as reported in the last Year Book, five more have been added. Associate General Secretary, Clarence J. Hicks, visited the Zone in February for counsel with the secretaries on the field and received from the government authorities assurance of their hearty and continued support. The efficient local Advisory Committee has for its Chairman, Colonel W. C. Gorgas, and at each of the four Association points committees of management efficiently co-operate with the secretaries in the administration of the details of the work.

**13. RELIGIOUS WORK DEPARTMENT.** (a) The department has continued its work on the lines laid out in the Five Years' Policy adopted in 1906. Special attention has been given to filling important positions in the local and state religious work directorship. Twenty-five such positions have been filled. In August the first session of the Summer Institute for religious work directors was held at Silver Bay, participated in by twenty-seven men. A similar institute has been planned for 1908. The secretaries have sought to relate themselves to these men in a helpful way.

(b) F. B. Smith, as in former years, has given the major part of the year to field work divided between: (1) Conventions and conferences. (2)

Local conferences and institutes. (3) Co-operation with other movements in men's work. (4) Evangelistic meetings for men. These were attended by 92,900 men, 3,992 of whom publicly avowed their intention to follow Jesus Christ. Much attention has been given to the administration and finances of the department.

(c) F. S. Goodman in field work has made 82 visits to Associations in 24 states and provinces, giving chief attention to the promotion of Bible study by men. He also participated in the conference of British secretaries in Portrush, Ireland, conducted the Institute for Religious Work Directors at Silver Bay, and directed the International Bible Study Examinations, which were participated in by 2,600 students. He has also given special attention, as in former years, to the literature of religious work and Bible study.

(d) R. A. Waite, Jr., has given the year, in the main, to work for older boys, co-operating with State Committees in State Conferences and in the summer conference on boys' work. He has led special campaigns in several important cities and has successfully conducted evangelistic meetings, both for boys and men, in connection with a widely extended local visitation.

(e) H. W. Arnold entered the service of the department in December 1907. He has made an extensive western tour, giving special attention to the promotion of the work of local extension and the federation of laymen in local fields.

(f) W. J. Southam spent the early part of the year in visiting the Canadian Associations, but at his own request was given a leave of absence to spend several months in England on an educational mission. The visitation of the Canadian field is in the meantime being carefully looked after by the other secretaries of the department.

14. EDUCATIONAL DEPARTMENT. The promotion of educational work has been continued as in the past, under the leadership of George B. Hodge. The year has been the most intense in our history. The financial depression has hindered its extension in many quarters, yet, owing to the growing appreciation for the more practical and varied work, the records show an increase of over 500 practical talks, 4,735 attended by 415,000 men and boys; more educational clubs than ever; 2,500 more students, 44,591 in all; \$55,000 increase in tuition fees or \$323,000 in all. Other items in proportion.

Sixty local Educational Institutes were held, thus stimulating local efficiency. There is a larger demand for quality of work and extensive development than ever, also a large increase in the nature and variety of industrial features. Robert T. Hill, besides other duties, has given special attention to educational work among boys. The number of Associations now employing Educational Directors for full time is forty-nine. The \$1,000 men of ten years ago are giving place to the \$1,500 and \$2,000 men of the present. Many Associations are continuing work through spring terms, and some announce summer classes and other activities. The features given special attention during the year have been special vocational courses, summer schools for boys, agriculture and agricultural clubs, English classes for non-English speaking young men and apprenticeship work in the various industries. Instruction and courses in the trades are also emphasized. The need of specialized training and study was recognized

by the attendance last summer of thirty-seven different men as students in the Educational Directors' Institute at Silver Bay. Forty men are in training this year at Lake Geneva and Silver Bay. Thirty-four hundred students took the first annual examinations in April, an increase of 400 over the previous year.

Educational features are increasing in variety as well as efficiency. More talks are given in shops and manufacturing plants at various hours of the day or night, and in a few places class work is being organized at noon. Apprentice schools under the combined auspices of the Association and the manufacturing plants are operated in a few places and this form of work must needs rapidly extend. Semi-professional features, such as automobile, window trimming, groups for the study of live stock, real estate, schools in the interests of corn, oranges, and last but not least a janitors' school is now on its feet. Trade schools in plumbing, carpentry, and other parts of the building trades are growing. The antagonistic attitude of labor organizations is decreasing in proportion as Association effort becomes increasingly efficient in the better training of workmen. Summer Schools for boys have doubled in the last two years. Experience proves that in proportion as we can encourage and promote educational features needed locally, there comes that increased appreciation and local support to the Association as a whole which gives permanence such as few other investments can equal.

15. **PHYSICAL DEPARTMENT.** Among the outstanding features of the Physical Department are: (a) More emphasis upon right living and less on muscular exercise; more attention to diagnosis than to physical measurements. (b) The field of physical work in the Association is now considered to be every boy and man in the community to whose physical needs no other organization is ministering. The Associations are accordingly becoming factors in promoting public play-grounds and in extending the work into industrial communities. (c) The promotion of social play. The Association is making advances toward getting the entire community interested in play. One Association has organized 1500 boys for baseball and another has 600 in basket ball. (d) Special attention is being given to the projection of physical work in rural districts where successful efforts are also being made in creating interest in domestic hygiene. (e) The program of physical work is being radically adjusted so that all of the exercises are arranged upon a physiological basis. New exercises including gymnastic dancing have been developed with this in mind and have resulted in marked changes in gymnastic work. (f) The Athletic League is proving increasingly efficient and its usefulness has been largely increased through an important change in the form of organization. G. J. Fisher, M. D. and Fred B. Barnes continue as Secretaries of the Physical Department.

16. **BOYS' DEPARTMENT.** This work is becoming a department of correlation, as the many other departments each year include work with boys. The executive administration has continued to rest upon E. M. Robinson; particular attention has been given to the western field by F. A. Crosby. In September, 1908, F. H. T. Ritchie will begin his work as Northern or Canadian, Field Secretary for the boys' work. Under the joint auspices of the Student and Boys' Departments David R. Porter addresses himself to the work with boys in the eight thousand secondary schools of the

country. R. A. Waite, Jr., of the Religious Work Department, has given his entire time to the religious work among boys; in the Educational Department, R. T. Hill to special educational work among boys, and in the County Department, A. E. Roberts to the general administration of the boys' work in the county field.

In several states, secretaries for boys' work have been added to the state force, and the number of local boys' work secretaries has been greatly increased. In addition to the training conferences for older boys conducted at Lakes George, Geneva and Couchiching, summer schools for boys' secretaries and adult workers have been inaugurated.

The conviction that it is the business of the Boys' Department to build up boys rather than departments is changing the character of the work in many places, and while the work in the buildings is better than formerly, more and more time is given to co-operation with other agencies at work with boys, such as Sunday schools, church clubs, street boys' clubs, community clubs, play-ground movements, public school athletic leagues, municipal leagues, juvenile courts, and so on. The boyhood of the community is considered the field of the work, and the boy members are at least beginning to be regarded as workers, rather than as a group to be worked upon. The sale of privileges continues, but increasing emphasis is placed upon the service expected in connection with the enjoyment of privileges.

17. SECRETARIAL DEPARTMENT. Securing efficient paid officers continues to be one of the most difficult as one of the most important objectives in every department of Association work. There are always many more applications than vacancies, but few available men are fitted for the work. During the past year secretaries of the International Committee have been asked to recommend men for 508 vacancies and have interviewed or had correspondence with 760, only 364 of whom were accepted for positions. Of 260 vacancies filled by the help of International secretaries, 95 were for general secretaries, 49 for assistants, 52 for physical directors, 17 for religious work directors, 19 for boys' work directors, and 17 for state and county secretaries. The salaries ranged from \$480 to \$3,000 per year, and the average was \$1,037.

Some of the encouraging things are:

(a). The number of college graduates that are entering our work. They constitute 20 per cent of all the men that became paid officers during the past five years, and 14 per cent of the general secretaries now employed by City Associations.

(b). The number of paid officers that receive special training before taking up their work. One-tenth of the general secretaries and one-fifth of the physical directors are graduates of the Springfield and Chicago Training Schools, 175 students are now attending these schools, and 46 will be graduated this year.

(c). The number of men that attend Summer Training Schools, the larger proportion of whom are paid officers seeking to increase their efficiency. Last year more than 500 were enrolled at Lake Geneva, Silver Bay, Lake Couchiching and Hot Springs.

(d). Increasing length of service and better remuneration. Twenty-eight per cent of the City general secretaries have been in the work from 10 to 34 years, and 13 per cent are receiving \$2,000 per year or more.

## FOREIGN WORK

The past year has witnessed the largest fruitage of any year in the history of the Foreign Department. This has been particularly true in the matter of spiritual results. The conversions traceable to the influence of the Association have been numbered literally by the thousands. The notable evangelistic campaign inaugurated in Japan at the time of the Federation Conference has been waged by the Associations during the subsequent months and the number of inquirers has increased from 1,800 to 3,000. The evangelistic results in China, Korea and India have also been very striking.

There has been an increase during the year in the number attending Bible classes in the foreign Associations of over fifty per cent. This progress is unprecedented. A place of leadership has been won by the Association workers in the Bible study development of nearly every country where the Association work is carried on.

The campaign among the thousands of Chinese students in Tokyo has been pressed with increasing efficiency and enthusiasm. A staff of nearly 20 Chinese and foreign workers have been giving themselves to impressing these future leaders of the New China. Many regard this as the work of furthest reaching importance thus far undertaken by the Association on behalf of any movement, not accepting what was done for the Japanese army.

It has been a year of continued advance in the building movements abroad. The last debt on a foreign Association building has been cleared off. The model Association building of the Far East—that of the Chinese Department in Shanghai—has been dedicated. Cornerstones have been laid of the new buildings at Seoul and Kyoto. The remarkable building canvasses of Manila, Mexico City and Buenos Aires have been completed. Money has been provided for at least twelve student Association hotels for different cities throughout Japan. Other building movements have been inaugurated.

Seven new foreign secretaries have been sent out during the year, namely, one to Ceylon who will proceed to the Levant; one to India, one to China, one to South America, and three to Mexico. The foreign staff now numbers seventy-two and is distributed as follows: Japan, six; Korea, four; China, twenty-four; Hongkong, three; Philippines, one; India, sixteen; Ceylon, one; Brazil, three; Argentina, three; South America as a whole, one; Mexico, eight; Cuba, two. Quite as gratifying has been the addition of nearly a score of new native secretaries, including some young men of marked ability.

The interest on the part of the home Associations in the foreign work as shown by their substantially increased financial support, continues to grow. A number of new Associations during the year have taken on the support of their own representatives on the foreign field.

Mr. Mott has had associated with him Mr. Andersen and Mr. Colton in the secretarial administration of the Foreign Department, the former with reference to the work on the foreign field and the latter with reference to the work at the home base. Mr. Holdren has served as office secretary.

Much of the work of the Norfolk branch is conducted in the annex building, a small frame structure at the naval training station, which is often filled two or three times for one entertainment, the men attending in relays. A strong religious program is carried on and most of the conversions reported are the result of the meetings held here.

The Atlantic Fleet consisting of 16 battleships, 6 torpedo-boat destroyers and 7 auxiliary vessels on its way to the Pacific reached Rio de Janeiro, Brazil, in January and during the ten days spent there the Association of that city rendered a most valuable service to the 15,000 sailors who enjoyed shore leave. An information bureau was established near the landing and here as well as in the Association building the men were accommodated in every possible way. Sight-seeing tours to places of interest were conducted with efficient guides and 40 very small cost to the sailors, \$80,000 of the men's money was exchanged for Brazilian coin, 3,000 excursion tickets, 40,000 souvenir postal cards and 40,000 postage stamps were sold, with 1,500 meal tickets entitling the holders to meals at different restaurants upon payment of a fixed price, thus ailing extortion and errors in change, correspondence facilities were freely used, 11,000 sheets of paper and 6,000 envelopes being furnished without cost; 21,000 copies of a guide to the city were distributed. This effort, which was deeply appreciated by both officers and men, was officially reported to the Navy Department at Washington.

During the brief stay of the fleet at Chefoo, China, in the summer of 1907, a temporary work was opened for the enlisted men, and although the number who went ashore was comparatively small, chapel meetings were held on board the ships with a total attendance of 1100.

\*Seventy-five men are in correspondence Bible study conducted from the International Office.

# INTERNATIONAL YOUNG MEN'S CHRISTIAN ASSOCIATION TRAINING SCHOOL

SPRINGFIELD, MASSACHUSETTS.

(Founded in 1885)

1908 Calendar.

Commencement, June 12, 1908.

Fall term begins, September 23, 1908.

New England Secretaries' Conference, February, 1908.

Annual meeting of the corporation on the third Friday in June.

## *Officers of the School.*

L. L. Doggett, Ph. D., President; C. A. Hopkins, Vice-President; H. H. Bowman, Treasurer.

## *Faculty.*

L. L. Doggett, Ph. D.; F. N. Seerley, M. D., M. H.; W. G. Ballantine, D. D., LL. D.; J. T. Bowne; M. H.; H. M. Burr, B. A.; J. H. McCurdy, M. D., M. P. E.; J. F. Simons; Elmer Berry, B. S.; R. L. Cheney, B. S., B. H.; F. S. Hyde, B. A., B. D.; William Knowles Cooper; G. B. Affleck, B. A., B. P. E.

The past year has been a most successful one at the Springfield Training School. The enrolment of students has been 115, as contrasted with 103 last year and 93 the year previous. These students are divided as follows: Graduate students 2, senior class 26, middle class 38, junior class 49.

The Training School offers two courses of study, each covering three years. Graduates of other institutions will be given advanced standing.

The secretarial course, which is based upon a study of man, leads to the degrees of Bachelor and Master of Humanities (B. H. and M. H.). These degrees stand for preparation for service.

The physical course, which prepares for the physical directorship in the Young Men's Christian Association and other institutions, leads to the degrees of Bachelor and Master of Physical Education (B. P. E. and M. P. E.).

Additions have been made the past year to the course in secretarial methods. The instruction in general administration is carried on by Mr. J. T. Bowne. Mr. Ralph L. Cheney and Mr. William Knowles Cooper have been appointed on the Training School faculty for instruction in methods in secretarial work. Mr. Cooper supervises the normal practice of the secretarial men, and gives instruction in the religious department, in the economic department and in social service. Mr. Cheney gives instruction in business management, building construction, the boys' department, supervision, etc. The course in religious education has been extended, and a new course will be given the coming year in evangelism and in the history of philosophy. In the physical course Mr. George B. Affleck has been added to the faculty. The course in hygiene has been lengthened to two terms, and will discuss both community and personal hygiene. A new course has been introduced in physical department methods for playgrounds, schools and colleges. The work in physiological physics and chemistry has been extended, and additional work will be required in kinesiology. Courses are now offered in athletics, gymnastics, aquatics, boxing, fencing, and wrestling. The histological laboratory has been reequipped, and is now well supplied with microscopes and a first class micro-projection apparatus. Mr. F. S. Hyde has also been added to the faculty. His work in history, English, and music is taken by the students in both departments.

## *Alumni Association.*

J. H. Scott, Brooklyn, N. Y.; W. H. Davis, South Danville, Vt.; J. A. Goodhue, Leominster, Mass.

THE INSTITUTE AND TRAINING SCHOOL  
OF  
YOUNG MEN'S CHRISTIAN ASSOCIATIONS

Complete courses in Chicago, Illinois.  
Summer Schools at Lake Geneva, Wisconsin.

*Distinguishing Characteristics*

FIRST. The school is an agency of the Young Men's Christian Association. Its specific function is the enlisting and training of employed officers of the Association. Its atmosphere and ideals are those of the Association.

SECOND. It is distinctly a professional school. The educational requirements for admission and the scope of its curriculum have in view concentration of time and thought upon those subjects that are definitely Associational. Preparatory subjects are not offered.

THIRD. The staff of instruction is composed as follows: (1) The officers of administration and instruction, who give their whole time to the interests of the Training School. (2) Officers of the Young Men's Christian Association, who by special arrangement serve the Training School as instructors in departments in which they are specialists. (3) Educators from other institutions who serve the Training School in a similar relation. By reason of its location, in a great educational center the School is able to offer instruction in Biblical and technical subjects of a character which would otherwise be impossible.

FOURTH. The location of the School in the midst of the activities of a modern city Young Men's Christian Association and in the heart of a great city gives unsurpassed opportunity for acquaintance with men and with the institutions of men.

FIFTH. The Summer Term at Lake Geneva is an integral part of its educational system,—under the same management and having in the main the same teaching force. By this arrangement the student is able to complete his course with the greatest economy of time and money and with the best results.

SIXTH. The Department of Visitation and Practice gives unrivaled opportunity to become acquainted with actual Association operation and with kindred and related organizations. The city is a vast laboratory and gives to the Association employed officer what the clinic and the hospital give to the medical student or the court room to the student of law.

An annual catalogue is published, making a complete exhibit of the School's activities and showing the location of all graduates and former students. This catalogue may be had upon request of Frank H. Burt, President, 824 Association Building, Chicago, Illinois, U. S. A.

## GENERAL SECRETARIES' INSURANCE ALLIANCE

The General Secretaries' Insurance Alliance was organized in the year 1880 and its object is stated in the first clause of the Agreement, which reads as follows:

"In obedience to the command, 'Bear ye one another's burdens,' and in consideration of the benefits promised by the Secretaries' Insurance Alliance to the subscribers thereto, the undersigned, whose whole time is employed by the Young Men's Christian Association in some department of its work on the Continent of North America, and whose name appears on the list of paid officers as recorded by the International Committee, agrees to pay to the Treasurer of the Secretaries' Insurance Alliance \$2.10 (in advance) to apply on the expenses incident to the last sickness and death of any subscriber to this agreement."

During the year 1907, there were three deaths of members as follows:

Benjamin S. Huggins, Religious Work Director at Worcester, Mass., died Thursday, January 17, after an illness of less than a week, with pneumonia. He had been in the Alliance about two years and had paid eleven assessments amounting to \$23.10. The beneficiary, his father, received \$2170.00.

Erskine Uhl, one of the Secretaries of the International Committee, died in New York City, June 4. His death followed an operation. Mr. Uhl had been in Association work since January, 1872, and had been connected with the International Committee since 1875. He had been a member of the Alliance nearly twenty-five years and had paid fifty-two assessments amounting to \$102.90. The amount paid his executor was \$2334.00.

Verling W. Helm, Associate National General Secretary for Japan, died in Kobe, October 28, after a six weeks' illness. This is the first loss by death of a foreign secretary in the eighteen years of the foreign work. Mr. Helm had been a member of the Alliance eleven years and had paid in \$84.00. His father, who was named as beneficiary, received \$2468.00.

Up to May 1, 1908, there has been one death. John M. Mathis, formerly Secretary of the San Antonio, Texas, Railroad Association, died in Dallas, Texas, Sunday afternoon, March 22. His death resulted from tuberculosis brought on by exposure and overwork. He had been a member of the Alliance nearly thirteen years and had paid in \$90.30. His widow, the beneficiary, received \$2598.00.

May 15, 1908, Cash on hand to apply on next benefit, \$2628.00.

The following named secretaries have been members continuously from the beginning:

J. T. BOWNE,  
I. E. BROWN,  
D. A. BUDGE,  
T. K. CREE,  
C. M. COPELAND,  
W. C. DOUGLAS,

## THE Y. M. C. A. ATHLETIC LEAGUE

In the General Secretaries' Conference, held at Orange, N. J., in 1889, there was extended discussion regarding the advantages of the formation of an Athletic League among the associations. Upon vote, a committee was appointed to consider the matter, and, if it seemed wise, to proceed at once with the organization of such a league. The committee consisted of Messrs. James McConaughy, George W. Ehler, and George A. Sanford. It became evident very soon that the action contemplated was beyond the function of the Secretaries' Conference and belonged to the International Convention and the International Committee. Accordingly the matter was referred to the International Committee and the sub-committee on physical work was instructed to proceed as rapidly as possible with the preparation of a scheme that might be useful in working out this problem.

The result was a plan of athletics which should build men all-round rather than provide competition in individual events, and a system of marking by which an absolute and not a relative rank or mark could be given, thus giving to athletic games the character of an examination rather than of a contest.

The International Conventions of 1889 and 1891 discussed favorably the formation of an Athletic League. In 1892, the State Committee of Illinois requested the International Committee to take steps in this direction, and the International Convention of 1893 instructed the committee to present its plan to the next convention.

The Physical Directors' Conference, held in Springfield, Mass., in 1894, requested the International Convention to perfect the organization of an Athletic League at as early a date as possible.

After that the matter was carried forward rapidly and reached its first definite step October 3, 1895, in the appointment of a committee which, under the direction of the International Committee, should govern the League. This committee held its first meeting on the following day and has since continued careful oversight of the League.

The League now enrolls in its membership 170 associations and about 3,000 athletes taking part in competitive games.

*Spirit of the League.* The League endeavors to foster clean sport between gentlemen. The following statements express the spirit to be sought and maintained in such sport. It is the privilege and duty of every committee and person connected with the League to embody these principles in his own actions and to earnestly advocate them before others:

(1) The rules of games are to be regarded as mutual agreements, the spirit or letter of which one should no sooner try to evade or break than one would any other agreement between gentlemen. The stealing of advantage in sport is to be regarded in the same way as stealing of any other kind.

(2) Visiting teams are the honored guests of the home team, and all their mutual relationships are to be governed by the spirit which is understood to guide in such relationships.

(3) No action is to be done nor course of conduct pursued which would seem ungentlemanly or dishonorable if known to one's opponents or the public.

(4) No advantages are to be sought over others except those in which the game is understood to show superiority.

(5) Advantage should not be taken of the laxity of officials in interpreting and enforcing rules.

(6) Officers and opponents are to be regarded and treated as honest in intention. When opponents are evidently not gentlemen, and officers manifestly dishonest or incompetent, future relationships with them may be avoided.

(7) Decisions of officials are to be abided by, even when they seem unfair.

(8) Ungentlemanly or unfair means are not to be used even when they are used by opponents.

(9) Good points in others should be appreciated and suitable recognition given.

The League is allied with other athletic organizations, namely, the Amateur Athletic Union and the Canadian Y. M. C. A. Athletic League. By the terms of alliance these bodies recognize the Athletic League registrations and sanctions, and the League has representation on the governing bodies of these organizations, and consequently a voice in the framing of their laws.

The membership and annual dues are \$5.00. Individual athletic registration costs 25 cents per year. Sanctions for athletic meets, basket ball and other games are issued upon application without cost to associations which are members of the League.

Every association in the League is entitled to one copy of the Hand Book, free, additional copies costing 10 cents each.

## THE PHYSICAL DIRECTORS SOCIETY

## OF THE

## YOUNG MEN'S CHRISTIAN ASSOCIATIONS OF NORTH AMERICA

The Physical Directors' Society of the Young Men's Christian Associations of North America was organized at Lakewood, N. Y., June, 1903.

The object of the organization is the promotion of physical training in general, and its relation to the Young Men's Christian Association in particular. Membership consists of two classes, active and associate.

The actives are Young Men's Christian Association physical directors and assistant physical directors; associates are any Young Men's Christian Association members who may be interested in physical training. The annual membership is two dollars, including the monthly magazine "Physical Training."

The present officers of the society are William H. Ball, Detroit, President; M. I. Foss, Brooklyn, Secretary-Treasurer.

The above with George J. Fisher, M. D., George F. Poole, M. D., New York City; William Burdick, M. D., Philadelphia; J. B. Modesitt, Sioux City, Iowa; George M. Martin, Toledo, constitute the executive committee.

The society is a valuable organization to the physical work in that

I. It represents unity. Things are being accomplished which could not be done by isolated effort, viz:

(a) Publication of Physical Training.

(b) Annual Conferences, where the discussion of important themes has provided mental stimulus and promoted advanced propagandas of work.

(c) Enriched the literature of physical training and brought about a standardization of method—bibliography of physical training, uniform anthropometric blanks, nomenclature, graded elementary exercises, etc.

II. It represents fraternity. It brings the various physical directors, older and younger, mature and immature, experienced and inexperienced in contact with each other in a receptive and serviceable way. Friendships are made and strengthened, sympathetic relations are established.

Five annual conferences have been held: St. Louis, Mo., 1904; Niagara Falls, N. Y., 1905; Indianapolis, Ind., 1906; Washington, November, 1907; Ocean City, June, 1908.

These conferences are held annually and in conjunction with either the International convention or the Employed Officers' conference.

Standing committees on Anthropometry, Graded Gymnastic, Religious Organization, Research, Social Service, Bibliography, Sexual Hygiene, etc., promote activity in the study of these subjects throughout the year and result in valuable original contributions.

## Fool Proof Oil

**3-in-One** is positively the only "fool proof" oil on the market. Any other typewriter oil, particularly heavy oil, will cake, gum and collect dust. Also clog all the bearings when used too freely.

You can't "over oil" with 3-in-One. All that is needed remains in the bearings; all the rest runs off. No matter how often or how much 3-in-One you use the bearings are always clean and work smoothly and accurately.

But it only requires a few drops of 3-in-One once in a while to oil every part properly. 3-in-One is very, very economical. It makes any typewriter look better, work easier and last longer. Try it just once.

**Free** Liberal sample and 3-in-One book sent free on request.

## CHAMPIONSHIP LAWN TENNIS BALLS ARE the BEST

The cheapest, too, for *one* outlasts *two* of any other make.

There's nothing experimental about this famous English Ball, manufactured by F. H. Ayres of London. It was the adopted ball of England for twenty-five years, was the first ball known to American tennis, and is one of the balls now authorized by the National Lawn Tennis Association.

It costs no more than any other authorized ball, and it outclasses all the others.

## MILLER KEYLESS LOCKS FOR ALL PURPOSES

No. 406, set No. 805  
For Wooden Lockers

It can't be too simple—that lock for the gymnasium locker. The clumsy member, as well as the bank clerk, must be able to operate it.

It must be worked as easily in the dark as in the light.

It must be easily changed in combination and not complicated.

It must be strong enough to stand wear and tear, dust, moisture and abuse.

It must be non-pickable.

It must be compact, easily adjusted, and low priced.

In short, it must keep out everyone except him who has the right to enter, and never fail him.

**The J. B. Miller Keyless Lock Does  
Just These Things**

Ask any of the following Physical Directors about them:

W. E. Day, Physical Director, Y. M. C. A., Dayton, Ohio.
